SIR:

In response to the Election of Species Requirement mailed July 14, 2003, Applicants provisionally elect, with traverse, the second species, Figure 5, for examination on the merits in the present application. All of the Claims 1-7 are identified as readable on the second species. Currently Claim 1 is generic.

Applicants respectfully traverse the Election of Species Requirement because the PTO has not carried forward its burden of proof to establish that searching and examining the claims corresponding to the noted figures would be an undue burden.

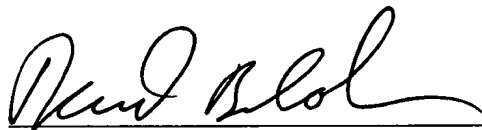

In particular, MPEP § 803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

Accordingly, Applicants respectfully traverse the outstanding Election Requirement on the grounds that a search and examination of the entire application would not place a serious burden on the Examiner.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
